

### Sr. Supplier Quality Layout Tehcnician

Sr. Supplier Quality Layout Technician provides tactical and strategic support to Production, PD&E, and the P&A Businesses by executing quality activities, such as: precision measurements of parts, verification of PPAP layout data, and reporting in an effort to maintain and improve customer satisfaction, eliminate errors and improve efficiency.

#### WHAT WILL BE YOUR PRIMARY RESPONSIBILITIES?

This position requires mastery of CMM programming, and a skill level that will allow the incumbent to be at a "trainer" or "internal consultant" level for programming and GD&T disciplines. As a result, the Procurement Team depends on the Supplier Quality Layout Technician to proactively communicate with the overall Supplier Quality team to ensure that all identified quality issues are resolved and corrective action is taken to prevent reoccurrence.

#### WHO ARE WE LOOKING FOR?

- 5 + years' experience in a manufacturing, operations, quality engineering environment, required with 2 years' experience in engine or engine component manufacturing or assembly, preferred
- 5+ years' experience in CMM programming (primarily Calypso software, some PC-DMIS, etc.)
- ASQ certification as CQT, CMI or higher, preferred
- Lean Six Sigma Green Belt training with project experience, preferred
- Associate or BS/BA in Engineering, Supply Chain Management, Operations Management or a closely related business field is preferred
- Thorough knowledge of blueprint analysis including GD&T
- Thorough knowledge of CMM programming
- Quality concepts: basic quality tools and problem solving techniques
- This position will require occasional domestic day and/or overnight travel by auto or airplane, up to 20%.

#### ABOUT THE DIVISION:

A division of Brunswick Corporation, Mercury Marine is the world's #1 recreational marine-engine maker and marketer by sales volume. Fueled by our passion for the water and our customer's boating experience, we provide the most reliable and intuitive propulsion solutions. Mercury Marine operates mainly in North America and the Asia/Pacific region.

#### ABOUT THE COMPANY:

Brunswick Corporation (NYSE:BC) is home to the people behind life's passions. Our company is made up of some of the world's leading lifestyle brands in categories such as recreational boats, marine engines, fitness equipment, active recreation, and activated workplace products. While we are family to 14,000 employees around the world, three divisions in more than 30 countries create a local environment, with our global headquarters in the Chicago suburb of Lake Forest, IL.
